

January 2016

To whom it may concern

Regarding Waste Exemption Regulations:

The Integrated Pollution and Prevention Control (IPPC) have changed to the Environmental Permitting Regulations.

I can confirm that the Warrington Recycling Plant is controlled under the Environmental Permitting Regulations and has a Permit Number **BL6802IU**.

Under these regulations controlled by the Environment Agency we are not required to hold a Waste Management Licence.

Please do not hesitate to contact me should you require any further information.

Yours Sincerely

A handwritten signature in black ink, appearing to read "K Guest".
